REPORT ON THE ADMINISTRATION

OF THE

CIVIL AND MILITARY STATION OF BANGALORE,

FOR 1882---83,

BY

J. B. LYALL, ESQ., B. C. S.,
Offg Resident in Mysore.

PART I.

GENERAL SUMMARY.

The administration and constitution of the Judicial tribunals in the Civil and Military Station of Bangalore remain the same as in the previous year. Several legislative enactments were extended to the Station during the year in addition to those which were in force in Bangalore before the rendition of the Province of Mysore to Native Rule on the 25th March 1881. The Code of the Bangalore Municipal Regulations was revised so as to suit the altered circumstances of the Assigned Tract, and a Regulation for the management and control of hackney carriages was also introduced during the year with the sanction of the Government of India

2. The only changes in the Police Force were the abolition of the six-rupee grade of constables and a slight addition in strength on account of the charge of the Bangalore Fort, which is detached and situated at some distance from the rest of the Civil and Military Station. The discipline of the force appears to be improving; departmental punishments were fewer than in the previous year one constable was prosecuted for extortion and convicted The education of the rank and file is better than in many parts of India, and as good as can be expected when the class of men from which the force has to be recruited is taken into consideration. The weak point of the force appears to be a want of detective power the fact that Europeans or Eurasians hold almost all the higher appointments may perhaps be justified by the large European and Eurasian population with which the force has to deal, but is probably a source of weakness in the detection of crime committed by natives

3. The cost of the Police during the year amounted to Rs. 61,865 showing an increase of Rs. 4,603 over that incurred in 1881. This increase, which was within the budget grant, was due to the improvement made in the pay of constables and the addition made to the strength of the force Out of the expenditure of Rs. 61,865, Rs. 41,605 were paid from local revenues and Rs. 20,260 from other sources.

4. Three hundred and fifty-seven cases of cognizable crime were reported in the year. These figures show a marked improvement when compared with those for preceding years, and may be attributed to the increased efficiency of the force, and to decrease of destitution, due to cheapness of food and to abundance of employment on railway works, &c Cases of public and local nuisance were, however, numerous, though not so numerous as in the previous year, but this is not surprising seeing that the sanitation of so large a Station as Bangalore is now being strictly enforced. There was a slight decrease in the proportion of cases in which convictions were obtained to true cases, but the percentage of convictions remains on the whole satisfactory. As regards persons arrested the figures for the year show an improve-

ment. It is satisfactory to observe that during the year there was a considerable decrease in the value of property stolen, the amount being Rs. 4,698 against Rs. 11,901 in 1881, and that the proportion of property recovered to that lost was 35 per cent as against 19 per cent in 1881.

5. Criminal Justice appears to have been satisfactorily administered. The number of offences reported was 1,983 or 210 more than in the previous year; of these 1,953 were returned as true. Including prisoners awaiting trial at the close of the preceding year, there were 3,082 persons for trial; of these 2,131 or 72·4 per cent were convicted and 914 or 26·49 per cent discharged or acquitted; 16 persons were awaiting trial at the close of the year. There were 14 cases involving 15 persons for trial before the Sessions Judge, 5 of whom were discharged or acquitted and 10 convicted. One person was sentenced to death. The total amount of fines imposed was Rs. 4,721—4—4, of which Rs. 3,023—10—7 were realized during the year. Rs. 417—4—0 were paid as compensation.

6. Against the sentences of the Sessions Judge, 8 appeals were entertained in the Chief Court of Mysore as High Court. Three appeals were rejected, 4 sentences confirmed, and one sentence reversed. The sentence of death passed by the Sessions Judge was confirmed Three cases were called for on revision and 2 were referred by the District Magistrate the orders of the lower Courts were not, however, interfered with Six petitions were received from parties for revision of sentences or orders passed in their cases. In 4 cases the Chief Judge declined to interfere, and in one case the sentence was modified. One case was remanded for further inquiry and disposal by the Magistrate.

.. As regards the administration of Civil Justice in the Civil and Military Station, it is not possible to institute a comparison between the number of suits filed in 1881 and 1882, as the Civil Court was opened only on 16th May 1881, and as a large number of suits shown as filed in this Court in 1881 were probably transferred to it from other Courts, in which they had originally been filed. Nor can any useful comparison be made between the various classes of suits filed in the past two years, because the classification of the suits of 1881 was obviously defective, 496 suits being shown as falling under the head "other suits for money or movable property" when under a proper classification a large number of them would probably have been shown as falling under the head "Contracts." The number of suits instituted during the year was 1,279 as against 1,208 in 1881. The proportion of suits instituted to the population of the Station was one in seventy-three. The total value of property under litigation was Rs. 1,09,594 giving Rs. 85—11—0 as the average value of each suit. The total receipts were Rs. 17,111—7—0 or Rs. 13—6—0, on an average per suit; and the total cost of litigation was Rs. 24,163—6—1 giving an average cost of Rs 18—4—3 per suit. Including 113 suits pending at the close of 1881, the Civil Courts had altogether 1,392 suits for disposal; of these 121 were left pending at the end of the year under review. Nearly ninety per cent of the total number of suits filed in 1882 were of a small cause nature, not exceeding Rs. 500 in value, and about seventy per cent were petty suits of the value of Rs. 50 and under.

8. The average duration was 43·12 in contested, and 18·11 in uncontested, suits as against 13·73 and 21·22 respectively in the previous year. The duration is rather high considering that a large number of suits filed was of a small cause nature and that the local jurisdiction was very small. There were 167 miscellaneous cases for disposal. The applications for execution of decrees were 1,981 including 91 pending at the close of the previous year. There were 114 pending on the 31st December 1882. The Civil Judge has no appellate jurisdiction; but 2 appeals which were transferred to him under the Notification of the Government of India dated 28th October 1881, and were pending at the close of that year, were disposed of during the year under report. Twenty regular appeals were preferred to the Chief Court of Mysore against the original decrees of the Civil Judge. There were 3 appeals pending at the close of the year, which have since been disposed of. The average duration of each appeal was 36·7 days.

9. There was a slight increase in the number of registrations as compared with the previous year. Of the 1,193 documents registered, 870 were of a nature that made registration compulsory. The aggregate value of the property transferred by the registered documents amounted to Rs. 9,22,945, *viz.* Rs. 8,83,499 of immovable and Rs. 39,446 of movable property. The average value of transactions in the former class was Rs. 785 and in the latter Rs. 588. The total receipts and expenditure of the department under all heads amounted to Rs. 4,629 and Rs. 1,365 respectively.

10. The Municipal administration of the Civil and Military Station was conducted under the Regulations of 1871 till the latter part of the year when they were superseded by the Regulations of 1883. The Fort of Bangalore, hitherto included in No III Division, was formed during the year into a separate Division, thus raising the number of Commissioners from 18 in the previous year to 19. The number of *ex-officio* members of the Board was 6. The actual receipts amounted in the aggregate to Rs. 1,64,605 or Rs. 1,991 over and above the estimate. There was a decrease in the income of the Municipality as compared with that of the previous year by Rs. 13,808. This was due to various causes. The decrease under "Octroi" was probably due in whole or in part to smuggling encouraged by the bad supervision maintained over the department by the detective agency. A change was made in the personnel of this establishment during the year. The decrease under the head "Tax on House and Land" was owing to delay in the settlement of a question raised by the Commissioners as to whether the assessment should be collected once a year in accordance with the Regulations or in two instalments as was previously done. The largest decrease was, however, under "Liquor License Fees." This was owing to the vendors of Colombo arrack in the Station not caring to renew their licenses for the year, and to the number of refreshment rooms and arrack shops having been considerably reduced as they seemed unnecessarily numerous. The large decrease under "Transfers and Contributions" was due to the discontinuance of the grant of Rs. 6,975 by the Mysore Government for the maintenance of suburban roads outside the municipal limits and to the non payment within the year by the Deputy Commissioner of the Bangalore District of the amount of land revenue collected on kandayam lands within the limits of the Station

11 The total expenditure during the year amounted to Rs. 1,37,050 showing a balance of Rs. 14,240 at the close of the year. Under the head "Conservancy," the expenditure amounted to Rs 29,685 or Rs. 3,744 more than the previous year. Great attention was paid to sanitation, and a more methodical system for the proper carrying out of conservancy measures was introduced.

12 There were no changes in the troops garrisoning the Civil and Military Station of Bangalore during the year under review. The strength of the Bangalore Rifle Volunteer Corps was 570 or 165 more than in the previous year. There was also a marked improvement in the efficiency of the corps.

13. The area under cultivation in the Civil and Military Station measures little more than one square mile. The rainfall was seasonable, and the total for the year was 36·35 inches. The mean temperature was 72·5 and humidity 68.

14. No arrangements have yet been made for the collection of statistics of trade and manufacture. One or two factories are at work, and others seem likely to be established. The principal trade consists of the importation of food grains and of articles of European manufacture.

15. The receipts at the Resident's Treasury under all heads amounted to Rs. 62,66,690 against Rs. 62,20,127 in the previous year, and the disbursements to Rs. 67,95,054 against Rs. 58,90,401 in 1881. This excess of disbursements, deducted from the cash balance of Rs. 7,52,495 with which the year opened, reduced the closing balance on the 31st March 1883 to Rs. 2,24,131 or Rs. 5,28,364 less than the opening balance of the previous year. The excess in disbursements as compared with the previous year was due to increased disbursements in the Military Department. in consequence of the Egyptian war, and to larger remittances to Madras. The working of the Treasury during the year resulted on the whole in a net surplus of funds to the extent of about 8 lakhs of rupees against 9½ lakhs in the previous year.

16. The total revenues of the Civil and Military Station for the year amounted to Rs 3,15,615, and deducting therefrom the charges against income Rs. 5,635, the net receipts were Rs. 3,09,980 or Rs. 34,926 in excess of the previous year. The expenditure under all heads amounted to Rs. 1,33,553 against Rs. 1,21,290 in 1881-82, which latter sum, however, represented only the actual expenditure for 11 months. The income in excess of the ordinary expenditure was thus Rs. 1,76,427.

17. There were 2,405 births and 1,466 deaths registered in the Station during the year against 2,167 and 1,555 in 1881, the proportion of births and deaths respectively to population was 25·71 and 15·67 per 1,000. Thus births exceeded deaths by 10·04 per 1,000. The mortality among females exceeded that of males by 10·33 per cent. Taking mortality according to classes the highest rate of mortality was among Hindus, who had a death rate of 16·44 per 1,000 of population. There were 46 deaths from small-pox which existed in an epidemic form during the months of April and May. Only 3 deaths occurred from cholera.

18. The Bowring Civil Hospital continued during the past year to be the only institution in the Civil and Military Station which afforded gratuitous medical aid to the public. The numbers of in-door and out-door patients were in excess of those for the two previous years Great attention was paid to sanitation during the year, and it is probably to this fact, as well as to the timely setting in of the monsoons that the general good health of the Station throughout the year is due.

19. The vaccination work was entirely done by two Municipal Vaccinators. The total number vaccinated during the year was 1,333 against 1,244 in 1881, and the successful cases were 1,061 or 79·6 per cent. It is satisfactory that there is some increase in the number of vaccinations and some of the Municipal Commissioners are said to have assisted in collecting children, but the District Magistrate is of opinion that vaccination will not be properly extended till it is made compulsory.

20 The educational returns show some progress, the number of institutions deriving support from Government rose from 61 to 66, and the numbers of pupils therein from 3,244 to 3,439. There are now 43 institutions for boys with 2,418 pupils, and 23 for girls with 1,021. The addition to the attendance of pupils was generally distributed through all the grades, the increase being 142 among boys and 53 among girls. The aggregate grants given during the year amounted to Rs. 26,491 against a private expenditure of Rs 51,018, of which Rs. 27,100 were realized by school fees and Rs. 23,918 expended from other sources. The increase in fee receipts amounts to Rs. 2,871 which is a good feature It appears that the Government grants go to support English instruction to the extent of Rs. 21,691; Tamil and Telugu to the extent of Rs. 2,892; and Hindustani to the extent of Rs. 1,902.

21. The literature of the Station consisted in the production of 48 English or vernacular books or pamphlets, of which 22 are set down as original works. More than half are on the subject of religion and nine are educational. As only 8 works were registered in 1881, the increased literary activity has been remarkable.

22. The number of Presses in the Station was 15 as in the preceding year and 10 newspapers were printed at these presses.

PART II.

I. PHYSICAL AND POLITICAL GEOGRAPHY.

FORM OF ADMINISTRATION.

The Civil and Military Station of Bangalore, which comprises an area of about 12½ square miles, has been administered by the Resident in Mysore under the orders of the Government of India since the Rendition of the Province of Mysore in 1881. The constitution of judicial tribunals in the Station remains the same as in the previous year. The Chief Judge of Mysore exercises the powers of a High Court; there is a Court of Session, and there are two Courts of Magistrates exercising 1st class powers; there is a Court of the Civil Judge, who is also the Sessions Judge and whose original civil jurisdiction is unlimited within the Assigned Tract; the Judge is also invested with the jurisdiction of a Court of Small Causes under Act XI of 1865.

II. ADMINISTRATION OF THE LAND.

Nil.

III. PROTECTION.

COURSE OF LEGISLATURE.

2. All the Acts, Rules and Regulations which were in force in Bangalore before the Rendition, continued to be in force in the Civil and Military Station during the official year 1882—83. The following legislative enactments were extended to the Station during the year:—

General Acts.

Act XII of 1880, the Khajis' Act.
" XXII of 1881, the Excise Act
" IV of 1882, the Transfer of Property Act.
" VI of 1882, the Indian Companies' Act
" VIII of 1882, the Indian Penal Code Amendment Act.
" X of 1882, the Code of Criminal Procedure.
" XIV of 1882, the Code of Civil Procedure.

Bengal Act.

Act III of 1869, an Act to enable Police Officers to arrest without warrant persons guilty of cruelty to animals.

3. The Code of Bangalore Municipal Regulations was revised so as to suit the altered circumstances of the Assigned Tract, and a Regulation for the management and control of hackney carriages was also introduced during the year with the sanction of the Government of India.

POLICE.

4. The only changes to be recorded in the constitution of the Police Force of the Civil and Military Station of Bangalore are the following:—the six rupees grade of Constables was abolished and a slight addition was made to the strength of the force on account of the charge of the Bangalore Fort. The Office establishment of the District Superintendent of Police was also drafted into the force in accordance with the practice obtaining in Madras and other Administrations. The system of 'standing' and 'special' beats was, with considerable benefit, introduced throughout the Station during the year, and the officers and men on night duty were supplied with dark lanterns.

5. The discipline of the force appears to be improving. The number of officers and men departmentally punished for small offences was much lower than in the previous year, and resignations and dismissals have been less frequent. One Constable, however, was judicially convicted of extortion.

6. The state of education is good as almost every man in the force can read and write.

7. The Police school commenced in the year with 58 students, of whom 1 officer and 35 men left school to their respective Divisions for duty after a course of instruction, and, with some more removals from different causes, only 17 men were actually on the register of the school at the close of the year. The course of study in the school was considerably increased. In addition to the usual Police subjects, Municipal Bye-laws and other Rules, the Railway and Telegraph Acts, Soldiers' Necessaries' Act, Forest Act and other Regulations were taught during the year.

8. The cost of the Police during the year amounted to Rs. 61,865 showing an increase of Rs. 4,603 over that incurred in 1881. This increase, which was within the budget grant, was due to the improvement made in the pay of the Constables and the addition made to the strength of the force. Out of the expenditure of Rs. 61,865, Rs. 41,605 were paid from local revenues and Rs. 20,260 from other sources.

9. Three hundred and fifty-seven cases of cognizable crime were reported in the year. In the two previous years the numbers were 498 and 488 and in 1880 the number was 565. These figures and the disappearance in the last three years of professional crime are satisfactory, and indicate that the Police are improving in efficiency. But Mr. Hewetson attributes the decrease of crime in part to greater absence of destitution, due to abundance of employment on Railway works and other causes.

10. There were 1,018 cases of public and local nuisance which, though a large number, is a little less than in the previous year. These cases must continue to be numerous if the sanitation of the Station is to be improved.

11. The proportion of cases in which convictions were obtained to true cases investigated was 91 per cent in 1881 and 87 per cent in 1882, thus showing a slight decrease, but the percentage of conviction remains satisfactory. As regards persons arrested the figures for the year show improvement, for the proportion of convicted persons to those arrested is 88 per cent as compared with 81 in 1881 and 86 in 1880.

12. It is satisfactory to observe that during the year there was a considerable decrease in the value of property stolen, the amount being Rs. 4,698 against Rs. 11,901 in 1881, and that the proportion of property recovered to that lost was 35 per cent as against 19 per cent in 1881.

13. There were no cases of robbery or dacoity and the number of grave crimes reported was lower than in the previous year. The proportion of these cases brought to conviction in the year under report was satisfactorily high.

14. The general health of the force was good, and with a view to protect the men from exposure to weather while on duty at nights, the purchase of 100 great coats was sanctioned during the year.

CRIMINAL JUSTICE.

15. Criminal Justice appears to have been satisfactorily administered. The following Courts were open for the disposal of cases :—

1. The Court of the Chief Judge of Mysore (High Court).
2. The Sessions Court.
3. The District Magistrate's Court.
4. The 2nd do do

16. The number of offences reported was 1,983 or 210 more than in the previous year. Of these, 1,953 cases were returned as true against 1,769 in 1881. The Magistrates had for disposal 1,964 cases, of which 1,500 or 76·37 per cent were disposed of by the 2nd Magistrate and 451 or 22·96 per cent by the District Magistrate, leaving 13 cases pending at the close of the year.

17. Including prisoners awaiting trial at the close of the preceding year, there were 3,082 persons for trial in the year under report, against 2,784 in 1881. Of the 3,082 persons, 2,131 or 72·4 per cent were convicted and 914 or 26·49 per cent discharged or acquitted ; 16 persons were awaiting trial at the close of the year. Of the persons convicted, 2,013 were summarily tried for nuisances and offences against Municipal Bye-laws ; 22 cases, affecting 29 European British Subjects, were brought to trial before the District Magistrate as Justice of the Peace ; 7 cases affecting 9 persons were withdrawn or struck off for default, 4 cases involving 7 persons resulted in acquittals or discharges, and in 11 cases conviction was had against 13 persons.

18. There were no offences committed under Chapters VI, VII, VIII and IX of the Indian Penal Code. The subjoined table shows the results of trials of heinous offences in the years 1881—82 :—

Offences.	Number of persons brought to trial.		Number acquitted or discharged.		Number convicted.		Died, escaped or transferred.		Pending under trial.	
	1881	1882	1881	1882	1881	1882	1881	1882	1881	1882
False evidence and offences against public justice	4	5	1	3	3	2	0	0	0	0
Offences relating to coin and Government stamps	0	3	0	0	0	3	0	0	0	0
Do affecting life	5	7	0	1	3	6	2	0	0	0
Hurt	50	26	18	5	30	21	2	0	0	0
Kidnapping, forcible abduction, &c.	2	1	0	0	2	1	0	0	0	0
Rape	0	4	0	1	0	2	0	1	0	0
Theft	163	199	19	35	138	157	2	3	4	4
Robbery and dacoity	2	0	2	0	0	0	0	0	0	0
Criminal breach of trust	14	27	0	11	12	13	0	1	2	2
Receiving stolen property	12	11	5	1	7	10	0	0	0	0
Cheating	2	10	2	9	0	1	0	0	0	0
Offences relating to documents	2	0	0	0	1	0	0	0	1	0

19. There were 14 cases involving 15 persons for trial before the Sessions Judge. Of the 15 persons, 3 were tried for rape, 7 for theft, 3 for criminal breach of trust and cheating, 1 for offence relating to coin and Government stamps, and 1 for offence affecting life. 5 of them were discharged or acquitted and 10 convicted. The above cases were tried with the aid of Assessors ; in 12 cases, the Judge agreed with the Assessors, in 1 he differed from 1 Assessor and in another from both the Assessors. The average in each Magistrate's case was 1 day and in each Sessions case 9 days.

20. Two thousand, two hundred and sixty witnesses were examined by the Magistrates. Of these 59·3 per cent were examined by the 2nd Magistrate and 40·7 per cent by the District Magistrate. The Sessions Judge examined 85 witnesses.

21. One person was sentenced to death ; 186 persons were imprisoned, 108 whipped, and 1,847 fined. One juvenile offender was ordered to be detained in a Reformatory school. Of the 186 persons imprisoned, 137 were for 6 months and under, 41 for 2 years and under, and 8 for 7 years and under. The total amount of fines imposed was Rs. 4,721—4—4, of which Rs. 3,023—10—7 were realized during the year. Rs. 417—4—0 were paid as compensation.

22. The Magistrates dealt with 59 persons under preventive jurisdiction :—

23 For frivolous or vexatious complaints.
26 For nuisances.
10 For maintenance.

23. The total receipts in the Magistrates' Courts were Rs. 5,556—10—2 and the aggregate cost was Rs. 15,580—9—8.

24 Twelve appeals affecting 12 persons were instituted in the Court of Sessions; in 1 the appeal was rejected, in 5 sentences were confirmed, in 3 sentences reduced and in 3 sentences reversed. The average duration of each appeal disposed of was 6·99 days.

25. Against the sentences of the Sessions Judge, 8 appeals were entertained in the Chief Court of Mysore as High Court. 3 appeals were rejected, 4 sentences confirmed and 1 sentence reversed. The sentence of death passed by the Sessions Judge was confirmed. 3 cases were called for on revision and 2 were referred by the District Magistrate; the orders of the lower Courts were not however interfered with. Six petitions were received from parties for revision of sentences or orders passed in their cases. In 4 cases, the Chief Judge declined to interfere, and in 1 case the sentence was modified. One case was remanded for further enquiry and disposal by the Magistrate.

CIVIL JUSTICE.

26. The number of suits instituted during the year was 1,279 as against 1,208 in 1881.

27. The proportion of suits instituted to the population of the Station was 1 in 73.

28. In 30·18 per cent of the suits instituted, the value of the subject matter did not exceed Rs. 10; in 40·57 per cent it varied from Rs. 10 to Rs. 50; in 10·24 per cent from Rs. 50 to Rs. 100, in 13·44 per cent from Rs. 100 to Rs. 500; in 2·8 per cent from Rs. 500 to Rs. 1,000, in 2·2 per cent from Rs. 1,000 to Rs. 5,000; and in ·15 per cent from Rs. 5,000 to Rs. 10,000. There were 5 suits in which the money value could not be estimated, and 56 suits relating to immovable property. Two suits were for declaratory decrees and 2 for dissolution of partnership.

29. The total value of property under litigation was Rs. 1,09,594—8—0, giving Rs. 85—11—0 as the average value of each suit.

30. The total receipts were Rs. 17,111—7—0 or Rs. 13—6—0 on an average per suit; and the total cost of litigation was Rs. 24,163—6—1, giving an average cost of Rs. 18—14—3 per suit.

31. Including 113 suits pending at the close of 1881, the Civil Court had altogether 1,392 suits for disposal. The manner in which they were disposed of is shown below :—

Without trial	.. ..	371
Without contest	Compromised	11
	Decreed on confession ..	154
	Exparte	446
	Dismissed do	24
With contest	Judgment for plaintiff in whole or in part	166
	Judgment for defendant ..	97
	By arbitration	2

There were 121 suits left pending at the end of the year. Of these 13 cases were pending for more than 3 months. On the disposal of suits *exparte* Chief Judge of Mysore observes—"No explanation has been given for the large number decreed *exparte*, but as only 24 applications were received to set aside *exparte* decrees, it may be presumed that there were good and sufficient reasons for so disposing of the great majority of cases decreed *exparte*. Of these applications, 3 were granted on sufficient cause being shown."

32. The average duration was 43·12 in contested, and 18·11 in uncontested, suits, as against 43·73 and 21·22 respectively in the previous year. The duration is rather high considering that a large number of suits filed was of a small cause nature and that the local jurisdiction was very small.

33. The number of witnesses who attended during the year was 1,640, or 482 more than in the previous year. Of these, 1,553 were detained for one day only, 76 for 2 days, and 11 for 3 days.

34. There were 167 miscellaneous cases for disposal Of these, 15 were applications for certificates under Act XXVII of 1860, 3 applications for grant of probate or letters of administration, and one under the Minors' Rules. They were disposed of with the exception of 15 pending at the end of the year.

35. The applications for execution of decrees were altogether 1,981, including 91 pending at the close of the previous year. They were disposed of as follows:—

By transfer	12
Satisfaction obtained in full	922
Do in part	199
Wholly infructuous	734
Pending	114

Rs. 35,231—5—4 were realized by attachment, sale of property and arrest; and Rs. 11,968—8—8 were paid in voluntarily. In 17 cases, judgment-debtors were imprisoned, in 9 movable property was sold, in 9 immovable property was sold, in 8 possession of immovable property was given and in 2 immovable property was otherwise dealt with. 7 applications were filed for declaration of insolvency; 4 were transferred and withdrawn, one was rejected, and 2 were pending at the close of the year.

36. Processes issued during the year numbered 5,772, and process fees realized Rs. 3,342—4—0. The net profits, after deducting the cost of establishment, were Rs. 2,387—6—0.

37. The Civil Judge has no appellate jurisdiction; but 2 appeals, which were transferred to him under the Notification of the Government of India No. 16 G. J., dated 28th October 1881, and were pending at the close of that year, were disposed of during the year under report.

38. Twenty regular appeals, as against 8 in 1881, were preferred to the Chief Court of Mysore against the original decrees of the Civil Judge. They were disposed of as follows —

Without contest.—	Confirmed	1
With contest.—	Confirmed	12
	Reversed	2
	Remanded	2

39. There were 3 appeals pending at the close of the year, which have been since disposed of. The average duration of each appeal was 36·7 days as against 20 in the previous year. Two second appeals, preferred against the decrees in the regular appeals specially transferred to the Civil Judge, were disposed of, as also all the five miscellaneous appeals filed in the year.

REGISTRATION.

40. There is a slight increase in the number of registrations compulsory and optional as compared with the previous year. Of the 1,193 documents registered, 870 were of a nature that made registration compulsory, the largest number being, as in the previous year, instruments of sales and mortgages of property valued at Rs. 100 and upwards; 256 were documents the registration of which was optional, 56 were of a miscellaneous nature and the remaining 11 referred to wills, &c.

41. The aggregate value of the property transferred by the registered documents amounted to Rs. 9,22,945, *viz.*, Rs. 8,83,499 of immovable and Rs. 39,446 of movable property. The average value of transactions in the former class was Rs. 785 and in the latter Rs. 588 against Rs. 592 and Rs. 1,390 respectively in the previous year.

There is a large decrease thus shown in the value of instruments relating to movable property, but it has however to be explained that the larger value shown in 1881 was owing to a special cause, *viz.*, the registration of 2 documents each of the value of Rs. 17,500.

42. The total receipts and expenditure of the Department under all heads amounted to Rs. 4,629—0—0 and Rs. 1,365—1—10 against Rs. 3,698—4—4 and 1,117—5—2 respectively during the previous year, thus showing an increase of Rs. 930—11—8 in receipts and Rs. 247—12—8 in expenditure. This increase in expenditure is chiefly due to the charge of house rent for the portion of the building occupied by the Sub-Registry Office on its removal from the premises in Broadway, which till lately were occupied by the 2nd Magistrate's Court. The number of cases in which registration was deferred for more than two days after presentation seems high. The greatest care should be taken to prevent unnecessary delay, as it is the waste of time involved which is the greatest objection to registration.

MUNICIPAL ADMINISTRATION

43. The Bangalore Municipal Regulations of 1871 were in force in the Civil and Military Station till the latter part of the year under report, when they were superseded by the Regulations of 1883. A Regulation for the management and control of hackney carriages in the Station was introduced during the year with the assent of His Excellency the Governor General in Council. The following three Bye-laws were framed by the Municipal Commissioners and confirmed by the Resident under the provisions of Section 225 of the Municipal Regulations of 1883 :—

(1). For regulating the conservancy of latrines attached to houses.
(2). For limiting the height of parapet walls around wells attached to houses and compounds.
(3). For carrying out necessary repairs to compound walls, &c., of houses by the occupiers thereof in the absence of owners.

44. The Fort of Bangalore hitherto included in No. III Division was formed during the year into a separate Division. Thus the Municipal Board consisted of 19 Commissioners against 18 in the previous year. The number of ex-officio Members of the Board was 6.

45. The budget estimate of receipts for the year including a balance of Rs. 20,000' which it was anticipated would be carried over from the previous year, amounted to Rs. 1,62,614, while the actual receipts amounted in the aggregate to Rs. 1,64,605 or Rs. 1,991 over and above the estimate. The following statement shows the income under the several heads of receipts during the years 1881—82 and 1882—83 :—

	Heads of Receipts	Actuals, 1881—82.	Actuals, 1882—83.	Increase.	Decrease.
I.	Octroi	46,044	44,111	...	1,933
II.	Tax on houses and lands	37,146	30,998	...	6,148
III.	Tax on professions and trades (liquor license fees)	39,322	25,827	...	13,495
IV.	Rents of buildings and lands	6,928	7,518	590	...
IX.	Extraordinary—(1) refunds and recoveries, (2) interests on securities and loans ...	1,048	1,365	317	...
X.	Fines	933	647	...	286
XI.	Pounds...	945	1,317	372	...
XII.	Miscellaneous	10,644	17,018	6,374	...
XIII.	Transfers and contributions	22,398	6,225	...	16,173
	Total Actual Receipts during the year.....	1,65,408	1,35,026	7,653	38,035
	Balance on 31st March 1882.....	13,005	29,579	16 74	...
	Grand Total.....	1,78,413	1,64,605	24,227	38,035
	Net Decrease.....	...	...	...	13,808

46. It will be seen from the above statement that the income of the Municipality during the year under report was less than that of the previous year by Rs. 13,808. The decreases are chiefly under the following heads:—I Octroi; II Tax on

Houses and Lands ; III Tax on Professions and Trades (Liquor License Fees) ; and IV Transfer and Contributions. The decrease under 'Octroi' was probably due in whole or part to extensive smuggling encouraged by the bad supervision maintained over the Department by the Detective Agency. A change was made in the personnel of this establishment during the year with a view to prevention by which it is hoped that better results will be obtained. The decrease under the head 'Tax on House and Land' appears to be due to the fact that a part of the demand was left uncollected during the year owing to considerable delay in the issue of bills. These bills were detained pending the settlement of the question raised by the Board whether the assessment should be collected once a year in accordance with the Regulations or in two instalments as was hitherto done. None of the vendors of Colombo arrack in the Station cared to renew their licenses for the current year and the numbers of refreshment rooms and arrack shops were considerably reduced, as they seemed unnecessarily numerous. There was therefore a large decrease under "Tax on Professions and Trades (Liquor License Fees)" though there was an increase in the amount collected as duty for sale of arrack and beer in excess of the limit fixed in the conditions of the license. Under the head " Transfers and Contributions," the decrease was due to the discontinuance of the grant of Rs. 6,975 by the Mysore Government for the maintenance of suburban roads outside the Station Municipal limits, and to the non-payment by the Deputy Commissioner, Bangalore District, (who carries on the revenue work of the Station under the existing arrangements), of the amount of land revenue collected on kandayam lands within the Municipal limits of the Civil and Military Station. There was an increase of Rs. 6,374 under " Miscellaneous" during the year, due, as in the previous year, to the increased income arising from leasing out the market stalls, &c., by open competition. The income derived from direct taxation amounted to Rs. 75,008, and the incidence per head of population was Rs. 0—12—10.

47. The total expenditure during the year amounted to Rs. 1,37,050, showing a balance of Rs. 14,240 at the close of the year, and was less than that of the previous year by Rs. 11,784 as will be seen from the appended statement :—

	Heads of Expenditure	Actuals, 1881—82.	Actuals, 1882—83	Increase.	Decrease.
I.	*Collection—*				
	For Octroi tax	5,206	5,658	452	...
	„ Tax on houses, buildings and lands ...	2,181	2,201	20	...
	„ Tax on professions and trades ...	232	184	...	48
	Rents assigned to the Municipality .	1,417	1,422	5	...
II.	*Head Office Charges*	2,974	3,195	221	...
V.	*Supervision and Management—*				
	Salary of Officers .	16,378	13,372	...	3,006
III.	*Public Works—*				
	(*a*) Supervision...	2,319	2,358	39	...
	(*b*) Original works	16,909	13,790	...	3,119
	(*c*) Repairs	31,877	26,768	...	5,109
	(*d*) Purchase of lands } (*e*) Compensation for houses, &c. } ...	515	670	155	...
IV.	*Police—*				
	One-third of the cost of the Civil and Military Station Police contributed by the Municipality	20,101	18,700	...	1,401
VI.	*Charitable Grants—*				
	Amount set apart for charities ...	3,522	1,440	...	2,082
	Vaccination	259	257	...	2
VII.	*Conservancy*	25,941	29,685	3,744	...
IX.	*Lighting*	9,500	6,490	...	3,010
X.	*Gardens*	84	84	...	...
XI.	*Extraordinary—*				
	Fairs and Exhibitions	393	274	...	119
XII.	*Miscellaneous—*				
	(*a*) Cattle Pound Charges	790	1,011	221	...
	(*b*) Statistics and Mortuary Registration ...	1,080	1,082	2	...
	(*c*) Other Miscellaneous Items ...	4,458	6,065	1,607	...
	(*d*) Reserve	2,698	2,344	...	354
		1,48,834	1,37,050	6,466	18,250
	Net Decrease.....	...	...	...	11,784

48 Among the principal items of expenditure it will be observed that there were decreases of Rs. 3,006 and 3,119 during the year under the heads "Salary of Officers" and "Original Works" respectively. The expenditure on account of lighting was also reduced by Rs. 3,010. Under the head "Conservancy" the expenditure amounted to Rs. 29,685 or Rs. 3,744 more than the previous year. Great attention was paid to sanitation, and a methodical system for the proper carrying out of conservancy measures was introduced into the Station during the year. The Municipal Engineer is appointed Sanitary Inspector; some pensioned sappers are entertained as conservancy peons and hand carts are provided for removing filth. The contents of these carts are deposited in the dust bins which are emptied by a contractor who at his own cost carts the rubbish away. By this system, the small lanes are cleaned out with the assistance of these carts with much facility, and the Municipality is saved the cost that would otherwise be incurred in carting the refuse away. It is hoped that when these arrangements have been properly put into working order, additional cleanliness will be secured and thereby the health of the Station will be improved.

49. The total number of lamps under lighting in the Station on the 31st March 1833 was 452 or 73 more than the previous year.

MILITARY

50. There was no change in the troops garrisoning the Civil and Military Station of Bangalore during the year under review. The following were the troops quartered in Bangalore during the year :—

European—
- Royal Artillery—3 Batteries.
- Cavalry—12th Lancers.
- Infantry—1st Battalion.—The Oxfordshire Light Infantry.
- Royal Engineers—1 Company Royal Engineers.

Native—
- Cavalry—1st Light Cavalry.
- Engineers—Head-quarters of the Madras Sappers and Miners.
- Infantry—4th Regiment, Native Infantry.
  15th Regiment, Native Infantry.

51. The strength of the Bangalore Rifle Volunteer Corps was 570 or 165 more than the previous year. There was also a marked improvement in the efficiency of the Corps. 170 members including 8 officers were returned as extra-efficients against 127 in 1881-82, and the efficients including cadets were 137 against 116. Thus the capitation was drawn during the year for 307 members against 243 in the previous year.

52. The appended table exhibits the strength of the Bangalore Rifle Volunteers as it stood on the 31st March 1883 .—

Ranks.	Extra-efficients.	Efficients.	Non-efficients.	Total.
Officers	8	4	...	12
Non Commissioned Officers	32	7	11	50
Volunteers (Rank and File)	130	59	166	355
Total.....	170	70	177	417
Cadets	...	67	86	153
Grand Total.....	170	137	263	570

IV. PRODUCTION AND DISTRIBUTION.

AGRICULTURE.

53. An area of about one square mile and 118 acres, or 247 acres less than the previous year, was cultivated in the Civil and Military Station of Bangalore during the year under report, and the extent of unculturable waste was nearly 617 acres. Seasonable rain fell during the year and the harvest was fair. The revenue demand, after excluding a sum of Rs. 10—8—0 which was struck off on account of land taken up for public purposes, was Rs. 3,723—13—11, as against Rs. 3,695—3—0 in the previous year.

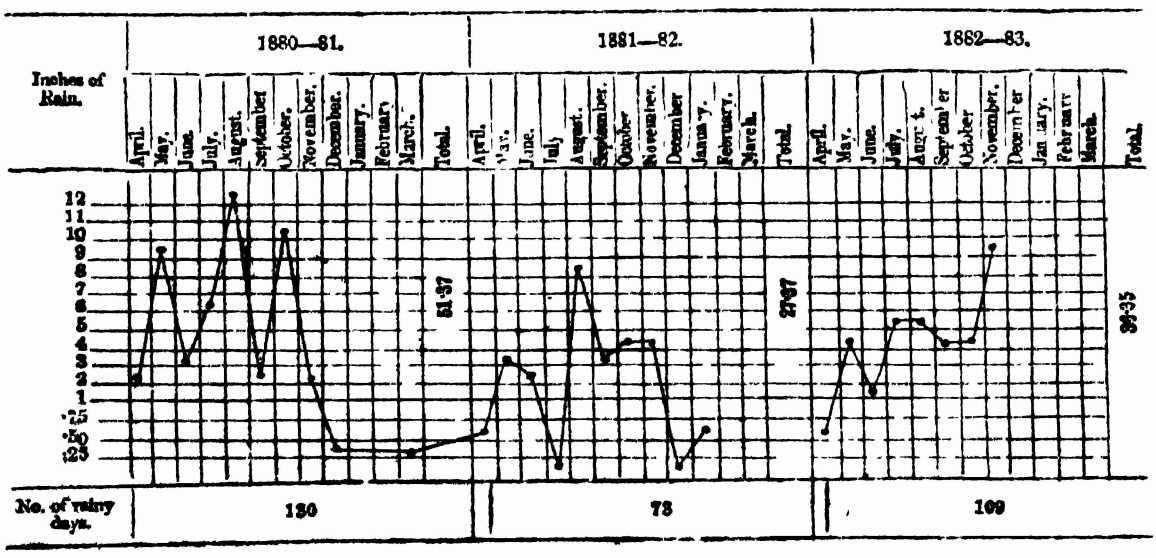
WEATHER AND CROPS.

54. The following table shows the mean temperature, humidity and rain-fall of each month during the year :—

Months.	Mean Temperature.	Humidity per cent.	Rain-fall. Inches.	Rain-fall. Cents.
April 1882	80·4	51	...	58
May "	78 2	61	4	41
June "	73·6	75	1	69
July "	69·9	86	5	60
August "	71·1	81	5	72
September "	71·0	81	4	5
October "	71·4	77	4	48
November "	69·1	80	9	87
December "	66·5	63	..	...
January 1883	68·0	61	...	...
February "	73·1	52	...	...
March "	78·0	53	..	...
Mean.....	72·5	68	36	35

55. The mean temperature was 72·5 against 74·7, and the humidity was 68 per cent, the same as in the previous year.

56. Thirty-six inches 35 cents of rain or 8 inches 98 cents in excess of the preceding year was gauged at the Bowring Hospital. In quantity the rain-fall was almost equal to the average of the past three years, its distribution was very seasonable, the fall during the commencement of agricultural operations being sufficient. On no less than 109 days rain fell; while the heaviest rain-fall was in the month of November, during which period 9 inches and 87 cents were gauged. The season on the whole was good, and grain of all kinds was cheap and plentiful. A chart showing the rain-fall for the past three years is appended :—



MANUFACTURE.

57 No returns are received from which statistics of the numbers and produce of the manufacturing industries of the Civil and Military Station of Bangalore can be given; but the out-turn of the Woollen Factory is said to be large, and the articles manufactured therein, consisting of horse clothing, blankets, cumblies, &c., are acknowledged to be of a superior quality. Messrs. Binny and Co.'s Coffee Works continue to do a flourishing business. Projects to form companies to work cotton mills in the Station were started during the year and there is reason to hope that they will be erected shortly. This industry would most usefully supply the demand for employment which exists at present.

TRADE.

58. No measures have yet been taken for the collection of trade statistics for the Station. The Municipality could easily, if necessary, arrange to get the figures of Railway trade from the Madras and Mysore Railway Companies' books, and of other trade from their Octroi Clerks who could be used as trade reporters. But as the trade is not large, the matter does not seem urgent. There is a large importation of food grains for local consumption and of articles of European manufacture for the use of the large population of Europeans, many of whom have become permanent residents in Bangalore. Commerce is not confined to any one caste, but the largest number of traders are Musalmans. Several branch shops were opened during the year by European Firms at Madras.

V. REVENUE AND FINANCE.

IMPERIAL.

59. The receipts at the Resident's Treasury under all heads amounted to Rs. 62,66,690 against Rs. 62,20,127 in the previous year, and the disbursements to Rs. 67,95,054 against Rs. 58,90,401 in 1881. There was thus an excess of disbursements over receipts during the year under review amounting to Rs. 5,28,364, whereas in the previous year the receipts exceeded the disbursements by Rs. 3,29,726. This excess of disbursements, deducted from the cash balance of Rs. 7,52,495 with which the year opened, reduced the closing balance on the 31st March 1883 to Rs. 2,24,131 or Rs. 5,28,364 less than the opening cash balance of the previous year.

60. The receipts and disbursements may be divided into two main classes, (1) Imperial Income and Expenditure, and (2) Debt and Remittance Accounts. The Imperial income amounted to Rs. 28,27,774 against Rs. 29,09,792 in 1881-82 showing a decrease of Rs. 82,018. The items for both years are given below for comparison:—

	1882—83	1881—82.
Subsidy from the Mysore State ..	24,50,000	24,50,000
Interest on the loan of 80 lakhs granted to that State	3,20,000	4,00,000
Interest on arrears of the subsidy payments, &c	..	26,805
Contribution from officers and establishment on account of pensions	32,092	13,363
Fees for the Uncovenanted Civil Service Examination	2,359	5,078
Other miscellaneous receipts	23,323	14,546
	Rs. 28,27,774	Rs. 29,09,792

61. The decrease is chiefly due to one-fifth of the interest realized on the loan of 80 lakhs having now been formed into a sinking fund for the repayment of the debt.

62. The Imperial expenditure amounted to Rs. 2,44,200 and consisted of the following items.

The items for the previous year are also given for comparison:—

	1882—83.	1881—82.
Salary of Resident, Assistant Resident, and Surgeon	72,301	79,892
Establishment	20,973	25,897
Travelling allowances and contingencies ..	17,099	7,758
Ecclesiastical charges	50,016	51,783
Political pensions	14,586	27,677
Civil pensions	49,765	43,599
Allowance to officers of other Districts on leave at Bangalore	10,636	8,481
Sundry other charges	8,824	11,603
Rs...	2,44,200	2,56,190

63. The following transactions are also of the nature of Imperial income and expenditure, but they are not shown as such in the books of the Madras Account Office:—

	Receipts.	Disbursements.
Military Department	2,46,940	29,78,181
Public Works Department	1,74,710	3,42,320
Postal Department .. .	1,48,471	1,99,124
Telegraph Department	38,661	46,078
Rs....	6,08,782	35,65,703

64. In the previous year the total receipts and disbursements on the above accounts were Rs. 8,72,314 and Rs. 31,37,999 respectively. In the year under review the receipts fell chiefly under the head of Public Works Department, while the disbursements rose under Military in consequence of the Egyptian Expedition.

65. The Debt and Remittance Accounts constitute the remainder of the transactions in the Treasury, the receipts amounting to Rs. 28,30,134 against Rs. 24,38,021 in 1881—82 and the disbursements to Rs. 29,85,151 against Rs. 24,96,212. The largest item is specie and currency note remittances, those sent in aid of the Treasury from Madras and elsewhere amounting to Rs. 12,26,650 in 1882—83 against Rs. 12,03,400 in 1881—82, while the surplus amount remitted from the Treasury to Madras rose from Rs. 18,00,000 in 1881 to Rs. 25,62,249 in 1882—83. The other items are for the most part on account of remittance transfer receipts issued by or paid at the Treasury. The working of the Resident's Treasury during the year under review resulted on the whole in a net surplus of funds to the extent of about 8 lakhs of rupees, against 9¼ lakhs in the previous year.

LOCAL.

66. The total revenues of the Civil and Military Station of Bangalore for the year under report amounted to Rs. 3,15,615—4—8, and deducting therefrom the charges against income Rs. 5,635—1—6, the net receipts were Rs. 3,09,980—3—2 or Rs. 34,926—3—2 in excess of the previous year. The main source of income was, as formerly, the excise on spirits and drugs which yielded Rs. 2,63,427—4—2 against Rs. 2,31,516—9—9 in 1881—82. The increase under this head accounts, it will be seen, for almost all the excess revenue of the year. The land revenue collections amounted to Rs. 3,695—11—8 as compared with Rs. 3,607 in 1881—82.

67. The expenditure under all heads amounted to Rs. 1,33,553—1—5 against Rs. 1,21,290 in 1881—82 which latter sum, however, represented only the actual expenditure for 11 months. The income in excess of the ordinary expenditure was thus Rs. 1,76,427—1—9. A sum of Rs. 5,025 was granted to the Municipality for the maintenance of suburban roads, the cost of repairs executed to the Residency bungalow was Rs. 1,735—0—7, and a sum of Rs. 6,140—2—5 was granted to the Mayo Town Hall. The total receipts from local cess on arrack, toddy, beer and gánjá amounted to Rs. 15,700—4—1.

68. The gross income in excess of the gross expenditure during the year was Rs. 1,78,061—4—8 or Rs. 14,357—8—4 more than that of the previous year.

VI. VITAL STATISTICS AND MEDICAL SERVICES.

BIRTHS AND DEATHS.

69. There were 2,405 births or 25·71 per mille of population registered in the Station during the year against 2,167 in 1881. The proportion of male children to female was 105·03 to 100. Births exceeded deaths by 10·04 per 1,000 against 7·76 during the previous year.

70. The number of deaths registered was 1,466 or 15·67 per 1,000 against 1,555 during the preceding year showing a slight decrease. The mortality among females exceeded that of males by 10·33 per cent, and this excess is attributed by the medical authorities to the fact that females not attending hospitals do not receive the same medical treatment as males. The highest rate of mortality was in May and August and the lowest in November. In respect to age, the rate of mortality was highest under 1 year, being 276 among males and 225 among females and lowest between 6 and 12, the figures being 21 males and 40 females. Except under the ages of 1 to 12 and 40 to 50, the mortality among females was, as in the previous year, greater than among males.

71. Taking mortality according to classes the highest rate of mortality was among Hindus, who had a death rate of 16·44 per 1,000 of population. Next came "Other classes," which include Europeans and East Indians, with a death rate of 15·20 per mille. Among Muhammadans, the death rate was 13·97.

72. It is satisfactory to observe that the deaths from small-pox only amounted to 46 against 277 in the previous year. In April and May this sickness existed in an epidemic form and the greatest number of deaths took place, but it abated with the setting in of the south-west monsoon. This decrease is attributed in the Medical Report to better work by the Vaccination Department aided and encouraged by the Municipal Commissioners some of whom are said to have collected children to be vaccinated at particular places. The District Magistrate however does not take so sanguine a view, and expresses the opinion that vaccination will not be properly extended till it is made compulsory. From fevers there were 322 deaths or 65 more than in the previous year. The highest number of deaths from this cause was in May and June and the lowest in July. Only 3 deaths occurred from cholera against 2 in 1881; two were amongst the troops and the 3rd was that of a traveller who came from an infected town. It is remarkable that there was no case of importation of cholera into Bangalore from Mysore though it prevailed in an epidemic form at the latter place. There were 210 deaths during the year from bowel-complaints, which include diarrhœa and dysentery against 190 in the previous year being a ratio of 2·25 per 1,000 of population. In July and August the death rate was highest, due as in 1881, to heavy monsoon rains during those months.

MEDICAL RELIEF.

73. The Bowring Civil Hospital continued to be the only institution in the Civil and Military Station of Bangalore which afforded medical aid gratis to the public during the year. The following table shows the numbers treated and the number and percentage of deaths from the most common diseases during the past five years :—

Diseases.	1878.			1879.			1880.			1881.			1882.		
	Total treated.	Number of deaths.	Percentage of deaths.	Total treated.	Number of deaths.	Percentage of deaths.	Total treated.	Number of deaths.	Percentage of deaths.	Total treated.	Number of deaths.	Percentage of deaths.	Total treated.	Number of deaths.	Percentage of deaths.
Fevers ...	6,136	3	·04	5,116	5	·09	3,537	21	·59	2,918	5	·17	3,027	2	·00
Diarrhœa ..	1,035	112	10·82	547	80	14·60	694	50	7·20	871	50	5·74	842	23	2·73
Dysentery ...	755	52	6·89	462	32	6·92	480	18	3·75	484	15	3·09	588	19	3·53
Ulcers ...	2,047	24	1·17	3,328	15	·45	3,508	14	·39	4,523	5	·11	4,145	7	·16
Debility ...	642	59	9·19	468	60	12·82	304	32	10·52	269	19	7·06	384	28	7·29
Respiratory affections...	1,238	10	·80	1,523	17	1·11	1,750	30	1·71	1,272	27	2·12	1,598	33	2·06

74. The greater number of admissions under the head of fevers and respiratory affections is attributed to excess of rain and to the large number of persons from the Mysore State Railway who sought relief in the Bowring Hospital. But, it will be observed, that the percentage of deaths from these diseases was somewhat lower. The cinchona febrifuge was, as in preceding years, generally employed and with benefit in the treatment of fevers: the use of quinine by the mouth or hypodermically being restricted to special cases. Under bowel-complaints including diarrhœa and dysentery, the number of cases treated in the hospital was nearly the same as in 1881, but the deaths were only 42 against 65. The large number of deaths from these complaints is attributed as in previous years to the fact that many chronic cases were brought to the hospital in the last stage of the disease. Cases of ulcer were again very numerous, but were not generally of the serious nature of the previous year. There was a considerable increase in admissions and deaths under the head of debility. Among the treated were many old and infirm people who were reduced to the last stage of weakness by neglect before admission.

75. Two sporadic cases of cholera came under notice, in one the patient died at home, the other was brought to hospital and recovered. The cases had no communication with each other. They were immediately followed by two fatal cases in the Native Regiments. Among respiratory affections, there were 34 admissions from pneumonia and 25 from phthisis, with 16 and 13 deaths respectively. Many of these cases were admitted in an advanced stage, 7 in the former and 3 in the latter, dying within two days of their admission. The number of persons treated for small-pox was 12, for chicken-pox 18 and for measles 8. Only 3 deaths occurred from small-pox.

76. The following are the number of in-door and out-door patients treated during the past five years:—

Year.	In-door	Out-door.	Total.
1878	2,087	23,981	26,068
1879	1,639	23,715	25,354
1880	1,441	24,825	26,266
1881	1,360	24,801	26,161
1882	1,513	25,008	26,521

77. There was an increase of 153 in the number of in-patients and of 207 in the number of out-patients over the previous year. Out of 3,712 Europeans treated against 3,039 in 1881, 3,435 were out-door and 277 in-door patients. This excess was due to the larger number of Railway employés who attended the hospital.

78. The hospital buildings were kept in repair, and a temporary shed in rear of the hospital was improved during the year so as to provide 10 beds for the use of the Station Police.

SANITATION.

79. In the early part of the year some anxiety was felt in regard to the epidemic of small-pox which continued from the previous year, but fortunately the rains set in in time and it disappeared. Great attention was paid to the sanitary condition of the Station by the Municipality. Daily conservancy of the streets and houses was attended to as regularly as possible, and, although much trouble was experienced from time to time from the opposition of certain classes of the Native population to the system, night soil was removed either by the inhabitants or by the Municipality within twenty-four hours. On the whole, the general health of the Station was good throughout the year.

80. A length of 12,729 running feet V section drains and 2,620 feet of box drains were constructed during the year. An addition of a few latrines, where necessary, was made, and roads aggregating 1,005 running feet were opened in some crowded quarters of the Native town.

VACCINATION.

81. The vaccination work was entirely done by Municipal Vaccinators who were two in number, both males. During the previous year there were one male

and one female Vaccinator, unfortunately the latter died of tetanus: she was of some help in vaccinating children of zanana families, and no female could be found to take her place.

82. The total number vaccinated during the year was 1,333 against 1,244 in 1881, and the successful cases were 1,061 against 1,043 or 79·60 per cent, or a ratio of 11·34 per 1,000 of population. The increase in the number of persons vaccinated is attributed, as already mentioned, to the exertions of the Municipal Commissioners. There were 22 cases of re-vaccination, of which 14 proved successful.

83. Out of the total number of successful cases, 547 were under 1 year, 367 between 1 and 6, and 133 above 6, years. According to sex, there were 608 males and 725 females who were vaccinated during the year.

84. The total cost of the establishment, which was borne by the Municipality, was Rs. 257-6-9 or Rs. 1-9-3 less than the previous year. Of this amount, a reward of Rs. 17-6-9 was paid to the parents of children vaccinated. The average cost of each successful case was Rs. 0-3-11 against Rs. 0-4-0 in the previous year.

VII. INSTRUCTION.

EDUCATION.

85. The number of institutions in the Civil and Military Station deriving support from Government rose from 61 to 66, and the numbers under instruction therein from 3,244 to 3,439. There are now 43 institutions for boys, with 2,418 pupils, and 23 for girls, with 1,021.

86. The following is a classified statement of the figures:—

Grade of Instruction.	Class of Institution.	For Boys.		For Girls.	
		No.	Pupils.	No.	Pupils.
University	Colleges	2	18	...	...
Secondary	High Schools	4	67	1	3
	Middle Schools	12	314	6	98
Primary	Primary Schools ..	24	1,871	16	920
Special	Institute	1	148	...	...
	Total.....	43	2,418	23	1,021

87. The increase in the number of institutions is chiefly due to the following changes:—St. Joseph's Seminary was raised to be a second grade college and St. Mary's Seminary merged in it; the Baldwin schools and St. Francis Xavier's Girls' school received new grants. The addition to the attendance of pupils is generally distributed through all the grades, the increase being 142 among boys and 53 among girls.

88. According to race or creed the pupils consist of 1,303 Europeans or Eurasians, 578 Native Christians, 1,024 Hindus, 453 Muhammadans, and 86 others. These returns show a diminution under the last three heads and a rise in the first two, an effect partly due to more accurate classification, but also the result of additional schools for European and Eurasian children being now aided from the public funds and thus brought into the reckoning.

89. *Financial Statistics.*—The aggregate grants given amounted to Rs. 26,491 against a private expenditure of Rs. 51,018, of which Rs. 27,100 were realized by school fees and Rs. 23,918 expended from other sources.

The following shows the distribution of the above sums according to the returns received :—

Institutions.		Government Grant.	Expenditure from—	
			Fees.	Other Sources.
Colleges ...	... ...	706	854	200
High Schools, English,	Boys' ...	2,735	3,476	4,605
" "	Girls' ...	80	216	0
Middle Schools "	Boys' ...	4,741	5,588	4,034
" "	Girls' ...	1,955	3,250	790
" Vernacular,	Boys' ...	210	60	175
Primary Schools, English,	Boys' ...	6,949	5,996	8,464
" "	Girls' ..	3,711	5,552	1,490
" Vernacular,	Boys' ...	2,244	587	2,100
" "	Girls' ...	2,500	427	2,060
Special ...	... ..	600	1,099	0
	Total Rs.....	26,491	27,100	23,918

90. The increase in fee receipts amounts to Rs. 2,871, which is a good feature. It appears that the Government grants go to support English instruction to the extent of Rs. 21,691 ; Tamil and Telugu, Rs. 2,892 ; and Hindustani, Rs. 1,902.

91. The following shows the amounts received and expended by the various religious denominations :—

Denomination.	Government Grant.	Expenditure from—	
		Fees.	Other Sources.
	Rs.	Rs.	Rs.
Church of England	9,360	10,026	3,965
Do Scotland	3,960	5,972	563
Wesleyan	2,292	1,595	1,991
London Mission	960	1,207	2,728
Methodist Episcopal	165	2,368	2,418
Roman Catholic	5,752	4,120	9,825
Hindu	1,500	480	511
Muhammadan	1,902	283	1,917
General	600	1,099	...

92. *Colleges.*—Bishop Cotton's and St. Joseph's come under this head. From Bishop Cotton's 2 students appeared for the First in Arts examination, but without success. St. Joseph's was newly constituted as a college and affiliated to the Madras University during the past year, special arrangements being made for instruction in science. A grant of Rs. 1,500 was given towards the purchase of apparatus for the laboratory. The institution is now thrown open to all classes and creeds. Bishop Cotton's has 7 students, and St. Joseph's 11. Of the latter, 2 are Native Christians and 5 Hindus; all the other college students are Europeans or Eurasians.

93. *High Schools.*—The public test of a High School is the Matriculation examination, and the results for the year as given below show 23 students passed out of 37 candidates, against 13 in the previous year out of 29. Of the successful competitors 6 were girls, 2 of whom came out in the first class. Among the private

students were 2 female teachers, one of whom (Miss. Flynn) took a first class besides heading the list in the Higher Examination for Women :—

School.	Presented and examined.	Passed.			
		I.	II.	Total.	
Bishop Cotton's	16	1	9	10	Includes 2 girls.
St. Andrew's	12	1	5	6	Do 2 do
St. Joseph's	3	...	1	1	
St. Mary's	1	...	1	1	
Baldwin...	1	1	...	1	A girl.
Convent	1	1	...	1	Do
Unaided.					
St. Mark's	1	..	1	1	
Total.....	35	4	17	21	Besides 2 female teachers of St Andrew's.

94. *Middle Schools.*—These schools prepare pupils for the Middle School examination and here again the results show favorably compared with those of last year, as 37 boys and 20 girls passed, the examination, against 15 boys and 14 girls in the year preceding. The following are the details :—

School.	Passed.			
	I	II.	III.	Total.
BOYS' SCHOOL.

Private Students	...	2	1	3
Total.....	3	13	41	57

95. *Primary Schools.*—A larger number of pupils satisfied the standards prescribed for primary instruction than during the year before. The figures are—175 passed the upper primary examination out of 340 examined, and 211 passed the lower pri- mary out of 1,870 examined, against 157 and 172 respectively last year.

96. The various schools included under the different grades of instruction were described in the Report for 1881—82, and it seems unnecessary to repeat the information.

97. The above returns sufficiently testify to the steady work that is going on, and exhibit an encouraging progress all round. All the schools were duly inspected; and, with a few defects here and there, it may be said that on the whole satisfactory efforts are being made to keep pace with the times in the important matter of education.

LITERATURE AND THE PRESS.

98. The number of works registered was 48, comprising 9 books and 39 pamphlets. As only 8 works were registered in 1881, the increased literary activity has been remarkable. The languages represented are also very varied. There were 6 works in English, 13 in Kannada, 1 in Tamil, 22 in Hindustani, 1 in Urdu, 1 in Persian; and of diglotts, 1 in English and Tamil, 1 in Persian and Hindustani, and 1 in Arabic and Hindustani.

99. The subject matter of the works falls under the following heads:—

Religion 26, Language 7, Law 5, Morality 3, Fiction 2, Science 2, Poetry, Medicine and Miscellaneous 1 each.

100. *Fiction.*—Under this head comes two love stories in Hindustani verse, one of Chhel Batav and Mohana Rani, the other called *Nudarat i Ishq* (the wonders of love) or Chandar Badan Mahiyar (moon-bodied Mahiyar).

101. *Language.*—The work in English is a "Manual of the analysis of sentences." Those in the vernacular, an Urdu Grammar, and Urdu selections, the Talim Nama, and a work called *Ruh ut Tahaji* (the essence of the alphabet), containing directions for the formation of the Persian letters and an illustrated alphabet after the manner of English books of that kind. The works in diglott are the *Amadan*, a vocabulary of Persian verbs with meanings in Hindustani; and the Royal School Primer with pronunciation of the English in Tamil characters and a Tamil translation.

102. *Law.*—Here come two works in English by Police Inspector Chokkalingam Pille; one, the "Police Manual," relating to the duties of Police officers, the other, the "Companion to the Police Manual," containing the unrepealed Criminal Acts. The three vernacular works are two in Hindustani and one in Tamil. The former includes *Faraiz e Khadriya*, on the Muhammadan law of inheritance, and a translation of the Rules of the South Indian Rifle Association; the latter is a translation of Municipal Bye-laws and Regulations.

103. *Medicine.*—Under this head comes the "Quarterly Journal of Veterinary Science in India and Army Animal Management," edited by Charles Steel, F. R. C. V. S., Superintendent of the Army Veterinary School at Poona, assisted by Veterinary Surgeons F. Smith, 12th Royal Lancers, and Steel, d. d. Royal Artillery, H. S. F. This is the first number of an important publication, which is well got up and illustrated. It is said to be published under the patronage of several of the senior officers of the various mounted branches of Her Majesty's Army.

104. *Miscellaneous.*—Here is entered the "Middle and High School Guide," containing examination papers on the subjects of the curriculum with answers.

105 *Poetry.*—One Hindustani work called *Divan i Lutf*, chiefly verses in praise of the Prophet.

106. *Philosophy.*—This includes 3 works on Morality, 2 in Hindustani and 1 in Persian. Of the former, one is *Akhlak i jamali*, the other is *Tohfa* (a gift), containing warnings against the play called *Indra Sabha*. The Persian work is styled *Rahima*, and is composed of moral stories written in imitation of *Sadis Karima*.

107. *Religion.*—The majority of publications generally fall under this division. There are 12 in Kannada, and as many in Hindustani, with 1 in Persian, and 1 in Arabic and Hindustani. The Kannada works are all little missionary tracts. The Hindustani works include, besides directions for prayer, and exhortations to religious duty, 2 works of a controversial character. One is called *Qanun i Qudrat Ilahi* (the law of God's power,) and professes to be a refutation of the comments on the Koran made by Saiyid Ahmed, the well known founder of the Alighur College, according to the system of which he is an advocate, called "Nechari" (*i. e.* the English word

nature.) The other is *Bible O Koran ka Mukhabila*, in reply to a work called "the Bible and the Koran," by the Revd Mr. Lewis. The Persian work is *Chehal Hadise Sharif*, the forty sayings of the Prophet, translated from the Arabic. The Arabic and Hindustani work is *Zarur ul Muslimin*, known as the *Chota Imam Nama*, or Little Book of Faith, treating of the essential duties of Muslims.

108. *Science*, (Mathematical), a work in Kannada, namely, a key to *Anka Ganita*, the school text-book of Arithmetic in general use in the Province.

109. *Science*, (Natural), an English work entitled "The Roll of Man's State," being an oracle on fortune telling.

110. It is not easy in many cases to distinguish whether works are original or not. 22 have however been set down as original works. Of the whole number of publications 9 are educational and the remainder non-educational.

111. The number of Presses in the Station is 15, the same as last year. 10 newspapers issue from these Presses; 1 daily and 3 tri-weekly in English; 2 weekly in Kannada; 3 weekly in Hindustani and 1 bi-monthly in Tamil. The Mysore and Coorg Directory, an annual for 1882, issued from the Examiner Press.

VIII. ARCHÆOLOGY.

NIL

IX. MISCELLANEOUS.

ECCLESIASTICAL.

112. *Roman Catholic Mission.*—There were four parochial churches in the Civil and Military Station during the year, besides one large chapel attached to the Convent and three small ones attached to educational institutions. In connection with the Cathedral at Shule, a library and recreation room were maintained as before for the use of Roman Catholic soldiers who are members of the Temperance Society. The number of Roman Catholics in the Station, including 1,951 Europeans and East Indians, amounted to 10,651 souls or 151 more than the previous year.

113. Fifteen European missionaries and two Native priests were employed in connection with the Mission either for parochial or educational purposes. They are all subject to the Bishop, Vicar Apostolic of Mysore and Coorg, whose head-quarters are at Bangalore.

114. The High School connected with the Mission was converted into a College during the year imparting education up to the F. A. standard of the Madras University. The number of students in the College was 328, of which sixteen, chiefly natives, attended the F. A. class. A staff of 6 priests and 13 other teachers was employed in connection with the College. In addition to the Ecclesiastical Seminary an English school with two mistresses was attached to St. Francis Xavier's Church to provide education for European girls. The Convent in Shule also offers superior education to 163 European and East Indian girls, some of whom are boarders. Attached to the Convent is a Magdalene Asylum open for females of all classes and creeds. The Convent undertakes needle work of all kind. The Boys' school at Blackpalli continued to attract Natives, the numbers being the same as in the previous year. The teaching of vernacular languages received attention, four schools for boys and four for girls having been maintained during the year as in 1881.

115. The number of Orphanages under the management of the Mission was six, three for Europeans and three for Natives. There were in the former, *i. e.* European orphanages 124 orphans of both sexes in addition to twenty Military children and in the latter, *i. e.* Native Orphanages, 195 orphans. The total number of orphans thus looked after was 319 or 46 less than in the previous year. Seven famine girls were married during the year.

116. The Catholic Press on St. John's Hill has executed all the printing of the Mysore Mission. It also undertakes work for the public both in English and in Canarese.

117. A party of five sisters of charity was, at the request of Government, procured during the year from Europe by the Mission to be employed in the Bowring Hospital for nursing the patients. They are French ladies but have already learnt enough of English and Tamil to make themselves understood in the Hospital.

118. *Wesleyan Mission.*—In the Civil and Military Station the Wesleyan Mission has two branches of work, *English* and *Tamil.*

119. There are two English chapels, one adjoining the Parade and the other on St. John's Hill, with a minister attached to each. The members of the two congregations number about 600 and the communicants 116. The Sunday schools connected with the two chapels contain 161 scholars and the English Girls' Day School in the Parade Chapel compound contains 61 pupils. There is also a Poor School in Shule with 25 children.

120. The *Tamil* work is under the superintendence of a missionary assisted by a native minister and a catechist. The native chapel has a congregation of about 300 members, of whom 116 are communicants. Sunday services for Christians and week-evening services for Hindus are also held at several other centres. There are two Anglo-Tamil schools for boys with 216 pupils and four in which Tamil is chiefly taught with 226 pupils. Adjoining the chapel is a Boarding School containing 36 girls and four day-schools for girls with 293 pupils. Including two Sunday schools with 70 scholars, the total number under instruction during the year was 771 or 128 less than the previous year.

121. The *Harvest Field*, an English monthly periodical, is published by the Mission in Bangalore.

122. *London Missionary Society.*—In connection with the London Missionary Society, there are 4 European missionaries, 2 native ministers, 7 native preachers and 51 school teachers of whom 4 are females. The operations of the society extend chiefly in the Bangalore Pettah and the country to the east of it, where it has six out stations. The number of Native Christians belonging to the Mission was 397 or 36 more than the previous year. Under its care, there are two orphanages containing 8 boys and 23 girls, also 14 schools with 1,113 scholars of whom 405 are girls. One of these schools provides education up to the Matriculation standard, twenty-one having passed at the last examination against 8 in the preceding year. The education in other schools is confined to the Middle and Primary standards. The preparation and circulation of school books and vernacular Christian literature has received much attention and the circulation amounted to 153,440.

123. Of the above work, the portion carried on in the Civil and Military Station has, as in the previous year, been limited to one native Tamil congregation of 100 members, two Anglo-vernacular boys' schools with 233 scholars and the preparation and circulation of school books and Native Christian literature.
